

## Creating a Career Plan

### **Short term of one year post graduation career goal(s)**

- What have you done in the past and what will you do going forward to prepare you for these career options?

### **Long term (five or more years post-graduation) career goal(s)**

- What will you do between now and that time to prepare you for these career options?
- Define the skills and experience you bring to your career.
- Describe the goods and services you will offer/ create in your career.
- Explain you income goals. Consider your “break even” point (How much do you need to make to cover your expenses?)
- What do you need to learn in order to start?
- What are the risks or threats and how will you overcome them.

Customize you current resume/CV to support the short term goal.
